Making Health Promotion “Tangible”

Workshop on community assets and measuring their impact, hosted by

NGO Alliance for Health Promotion, A4HP

20th IUHPE Conference, CICG, Geneva

15 July 2010, 11:00-12:30 – Wild Side, Room D

General description

Does the mantra “if it can’t be measured, it can’t be funded” always hold true? How can outcomes of NGO activities in health promotion be made “tangible” or measurable?

This workshop aims to highlight practical challenges and approaches to generating “evidence” for the role of community assets to mainstream health promotion. Issues surrounding the need for “evidence” will be discussed and participants will be invited to provide innovative solutions based on their experience in a brainstorming World-Café workshop format.

Trigger Speakers

- Mihály Kökény, WHO executive board member, former Minister of Health for Hungary
- Penny Hawe, University of Calgary, IUHPE Global Working group on Social Determinants of Health
- Gauden Galea, WHO Coordinator for Health Promotion
